

What does the Fox say?

Issue 7 – 9th April 2020

Hi all,

The Easter long weekend will look different this year – with public health orders in place due to COVID-19 we are all advised to stay home.

Take this opportunity to relax and spend time with those closest to you.

Happy Easter and stay safe.

Clean hands protect against infection – Protect yourself and those around you

- Clean your hands regularly – washing with soap and water is the best option
- Wash with soap and water and dry thoroughly per Handwashing Instructions
- Use alcohol-based hand sanitiser if you don't have immediate access to soap and water
- Remember that supplies of hand sanitiser are limited so use wisely

Joe Holahan: General Manager – Quality and Projects

In Executive and Senior Management we often speak of finding the “point of truth” on which to base our assumptions and strategic direction. During the current pandemic crisis, there is a LOT of information getting about. Some of it is useful. I would strongly recommend that everyone download the Australian Government Coronavirus App. Given that Australia is having some good early results in managing the Pandemic, I think the Government's App is a suitable “point of truth”. This Application will be constantly updated with appropriate advice and resources, based upon the current circumstances, and (importantly) based upon the best medical advice available in Australia.

Wash your hands regularly and keep your physical distance from others.
